OCTOBER 1, 2009 – FOR IMMEDIATE RELEASE

Leaking Pipe? Repair PVC Leaks in 60 Seconds with Leak-B-Gone Ring

O'FALLON, MISSOURI – At King Innovation, we have the solution contractors need for [leaking pipes](#). The new [Leak-B-Gone™](#) leak stopper ring is a powerful and permanent solution against leaking PVC pipe joints, and it installs in only 60 seconds.

Cutting out and replacing sections of leaking pipe is costly and time consuming. The Leak-B-Gone ring is easy to install; absolutely no tools are required. Simply, apply primer and cement, then slide Leak-B-Gone around leaking pipe joint. With 360° protection against leaks, pipe joints are wrapped securely and messy leaks are eliminated.

Leaks don't discriminate against pipe size, and neither does Leak-B-Gone. King Innovation's leak stopper ring is available for seven different sizes of PVC pipe to meet various residential and commercial needs, like irrigation, plumbing, or HVAC.

Leak-B-Gone leak stopper ring is not for use in bathroom or kitchen P-Traps, or on compression fittings.

For specification sheets, free sample requests, high resolution images, or to contact a representative, please visit us online at www.kinginnovation.com.
