January 10, 2012—FOR IMMEDIATE RELEASE

18" Replacement Blade Now Available for King Innovation® PVC Saw

O'FALLON, MO—King Innovation's PVC Saw now has both 12" and 18" Replacement Blades available.

These versatile PVC Saw Blades cut cleanly through both PVC and ABS plastic pipe. The robust, thick blade also features a v-tooth design to make cuts straighter, cleaner, and quicker. Easily interchangeable, the 12 and 18 inch saw blades make it versatile, perfect for use on any job. King's PVC Saw also features a cast aluminum handle with an ergonomic design, perfect for Contractors with tired hands and tough jobs.

The PVC Saw and Replacement Blades are part of King Innovation's line of hand tools, including pipe cutters, wire strippers, a hacksaw, cable saw and a variety of ergonomic hand tools.

For specification sheets, free sample requests, high resolution images, or to contact a representative, please visit us online at www.kinginnovation.com.

King Innovation specializes in the development, design, and manufacture of innovative products to meet customer needs. King's wide product offering includes DryConn® Waterproof Connectors, Gorilla Nuts™ Cushion Grip Wire Connectors, Contractors' Choice™ Connectors, SnapTap® Saddles, AlumiConn® Aluminum to Copper Lugs, DryConn® VisiLock™ with SmartGel™, King Drains®, King Grips®, Comfort Squeeze® ergonomic hand tools, and a variety of accessories.

Located outside St. Louis in O'Fallon, Missouri, the King Innovation headquarters houses its R & D laboratories, manufacturing and office facilities.
