

LEAK-B-GONE PVC LEAK STOPPER RING

DID YOU KNOW THAT LEAK-B-GONE:

Is a 60 second solution?

Yep, 60 seconds is all it takes to repair pipe leaks. No more cutting out and replacing leaking pipe joints, just one Leak-B-Gone and one minute is all you will need to get the job done.

Requires absolutely no tools?

Simply apply primer and cement, then slide Leak-B-Gone around the leaking pipe. No tools required. To see for yourself how easy it can be, watch our video at www.kinginnoation.com.

Is a permanent fix?

Yep, we said permanent. This one little ring provides a 360° seal around leaking pipe to ensure that your problem is repaired, for good.

Can be used on the job or in your home?

While Leak-B-Gone rings are not for use in bathroom or kitchen P-Traps or on compression fittings, they may be used for repairing PVC leaks in both residential and commercial applications!

Is available in seven sizes?

Whatever size your pipe, there's a Leak-B-Gone to fix it. The leak stopping ring is available in seven sizes ranging from 3/4" all the way up to 4".
