

KING SERIES CONNECTORS

KING 4

KING 5

KING 6

KING 9

DID YOU KNOW THAT THE KING SERIES:

Don't require a junction box?

The proof is in the name... DryConn Direct Bury Wire Connectors. No junction box required, just twist on the connector, put it in the ground, and rest assured that your splices will be treated like a King.

Cover a wide span of wire ranges?

We said connectors ladies and gentlemen, there's more than one! The King 4 Yellow, King 5 Red, King 6 Blue and King 9 Dark Blue together span wire combinations between #18 - #6 AWG.

Are the product you need for landscape lighting applications?

Direct bury? Check. Suitable for use in UL 1838 low voltage landscape lighting systems? Check. Yep, this is the one for the job when it comes to landscape lights!

Can be used with a higher voltage too?

Sure they're great for the application, but these connectors aren't just for low voltage landscape lighting. They are UL 486D approved for use up to 600V.

Don't just stop at direct bury?

Yes you can put DryConn Direct Bury Wire Connectors right into the ground, but did you also know that they are waterproof? A dielectric silicone sealant will ensure you splices are kept safe and dry.
