

POLY/PVC PIPE CUTTER

DID YOU KNOW THAT THE POLY CUTTER:

Can withhold extended use?

No using the "my cutter broke so I can't do the job" excuse with this one. A cast aluminum body means that this cutter is comfortable, yet durable, for continued use.

Has a big mouth?

The blades on King Innovation's Poly Cutter open wide to fit up to 1 1/2" poly (PE) pipe and up to 1 1/4" Class PVC pipe.

Works faster?

This Poly Pipe Cutter knows how to get a job done quickly. A hardened steel blade with a sharp surface means that cuts are quick and clean.

Loves your hands?

Sweet, tender, loving care. That's how a King Poly Cutter will treat your hands. It features an ergonomic handle that works to reduce overall hand and finger fatigue and soreness.

Is not an only child?

Nope, this Poly Cutter is one of many King Cutters, including a Ratchet PVC Cutter, a Hack-saw, PVC Saw, and Cable Saw, not to mention a variety of King Tools for wire stripping, crimping and cutting.
